

About [Shipsy](#):

Founded in 2015, Shipsy is an **AI-first global technology leader** transforming the multi-trillion-dollar logistics industry through smart, efficient, and sustainable supply chain solutions. Our platform powers **275+ enterprises** across sectors like logistics, retail, manufacturing, and automotive—including **Heineken, Aramex, Walmart, DHL, Qatar Post, Reliance, and more.**

We are proud to be:

- **Recognized in the Gartner® Magic Quadrant™** and named “**Customers’ Choice**” in 2024 for Transportation Management Systems
- The **highest-rated logistics platform in our category globally**
- Backed by **Peak XV and A91 Partners**, having raised **\$35M+** to date

Our **AI-powered logistics management platform** helps enterprises gain real-time visibility, optimize decision-making, and automate logistics operations across first, middle, and last mile—driving end-to-end efficiency and unlocking new growth opportunities.

With a footprint across **India, the Middle East, Europe, Southeast Asia, and ANZ**, we’re at the forefront of AI-led disruption in logistics, enabling businesses to launch 10-minute deliveries, build in-house logistics arms, and reduce global last-mile costs at scale.

Our Global Growth Story

- **2021: International Expansion and Rapid Growth** – Shipsy established its first international office, a regional headquarters in Dubai, marking the start of its Middle East expansion. The Middle East quickly became a significant market, with about a 75% increase in both client base and revenue.
- **2022: Series B Funding & Expansion** – Set up a regional HQ in Saudi and expanded into Europe and the UK.
- **2023: Record Growth & Acquisition** – Achieved **100% revenue growth**, opened HQs in Netherlands and Riyadh, and acquired Stockone (WMS) to enhance our logistics platform.
- **2024: Industry Recognition** – Named “**Customers’ Choice**” in Gartner’s report for Transportation Management Systems.
- **2025: Expansion & Industry Leadership** – Established HQs in Australia (Sydney) and London to drive ANZ expansion, and recognized as a Niche Player in the 2025 Gartner® Magic Quadrant™ for TMS!

Job Description:-Business Strategy Intern-Founder's Office

☀ Why this role is exciting?

This internship is designed for someone who wants to fast-track their learning curve. You'll work directly with leadership, get exposure to deals, technology, operations, and growth strategies — and you'll use cutting-edge tools like Hubspot, Ai apps like ChatGPT, Claude etc. daily. It's a **generalist role** with a unique opportunity to learn how different parts of a business come together to drive scale.

Key Responsibilities (KRAs)

1. **Marketing Research & Campaign Support:** Deep-dive into customer segments, markets, and competitors to support strategic decision-making to contribute to digital campaigns by generating target account insights, messaging strategies, and performance analysis.
2. **Workflow Automation:** Leverage platforms like ChatGPT, Claude to automate tasks and scale productivity.
3. **Sales Pipeline Ownership:** Monitor the movement of deals across stages using HubSpot. Flag risks, delays, or broken processes before they snowball.
4. **Reporting & Insights:** Build dashboards and prepare data-driven insights for leadership on deal health, productivity, and growth opportunities.
5. **Revenue Strategy Ops:** Drive weekly reviews with AEs and Sales VPs, surface blockers, and assess deal health to ensure high win rates.
6. **Cross-Team Collaboration:** Work closely with Sales, Product, and Customer Success to solve strategic problems and implement initiatives.
7. **Call Intelligence & Follow-ups:** Join key sales and strategy calls, maintain consistent talk tracks, document action items, and share summaries with stakeholders.

What We're Looking For

- **Tech-savvy & hands-on:** You love experimenting with new tools and can self-learn software quickly.
- **Inherently curious & agile:** You ask the 'why' behind things, adapt fast, and thrive in ambiguity.
- **Strong analytical skills:** You can structure messy data into insights and drive decisions.
- **Excellent communication:** Whether it's writing crisp call notes or aligning teams, you can articulate clearly.
- **Collaborative mindset:** You work well across functions and don't mind getting your hands dirty when needed.

Key Requirements

- Fresh graduates or final-year students.

- Prior internship or project experience in strategy or hands on any experience with **ai automation apps like n8n is a plus.**
