ABOUT IIIT KOTTAYAM

Indian Institute of Information Technology, Kottayam is a premier institute of higher education located in Valavoor, Pala, Kottayam spread over 53 acres.

IIIT Kottayam was established in the year 2015 as one among the IIITs established under the administrative control of the Government of India and later declared as an “Institution of National Importance” by an Act of Parliament enacted in 2017.

The curriculum is designed to provide students with a solid foundation and covers major domains of computer science, Electronics, Cyber Security and Artificial Intelligence, Data Science as well as opportunities for research and innovation.

IIITK has state-of-the-art facilities, including advanced computing and networking resources along with startup incubation centre to support entrepreneurship and innovation among students.

MISSION

Generate a specialized cadre of Information Technology experts by imparting quality education, training and to attain international standards in teaching, research and consultancy with global linkage.

VISION

To contribute to India and the world through excellence in Information Technology, technical education and research while fostering innovation, industry engagement, and serving as a valuable resource for industries and society.

ABOUT PLACEMENT CELL

The IIIT Kottayam Placement Cell aims to facilitate the professional growth of students by bridging the gap between academia and the industry. By collaborating with corporate firms and providing training programs, the Placement Cell opens up opportunities for students to gain industry exposure, guidance and the necessary skills to succeed in their careers

MISSION

The IIIT Kottayam Placement Cell envisions itself as a top-notch centre for placements that empowers students to realize their career goals, fosters a collaborative environment for their professional growth and lifelong learning, and forges strong partnerships with industries and corporate firms to offer diverse career pathways for students.

VISION

The Placement Cell is committed to providing exceptional career guidance and counselling to help students make informed decisions about their career paths. It also strives to equip students with the skills and knowledge needed to succeed in their chosen fields through various training programs and workshops.

DIRECTOR'S DESK

In just nine years, IIIT Kottayam has established itself as a leader in academic and infrastructural development. Our state-of-the-art campus and committed faculty provide students with the ideal environment to excel.

Dr. Rajiv V. Dharaskar

We offer a comprehensive, industry-aligned curriculum designed to prepare students for diverse roles such as Software Development, Data Science, Artificial Intelligence, and more. Our focus extends beyond technical expertise; we also introduce students to essential business and management skills through single-credit business courses, giving them a well-rounded understanding of today's professional landscape.

By combining cutting-edge technical knowledge with real-world business insights, we equip our graduates with the versatility and skills required to succeed in a variety of fields, including software engineering, data science, consulting, and product management. Our goal is to prepare students not only to meet the demands of the industry but to lead and innovate in it.

We look forward to working with your organization and welcome you to the on-campus placements.

With Best Wishes!

**Director
IIIT Kottayam**

REGISTRAR'S DESK

Dr. M Radhakrishnan

Indian Institute of Information Technology, Kottayam, is a budding institute bound to reach heights, the likes of which have never been seen before. Institute has its own permanent campus with world class facilities are provided to both teachers and students.

In order to ensure that the primary objective of education is never pushed below by presence of trivial issues. Separate hostel accommodation is provided for boys and girls. All the hostels have common rooms, 24-hour Wi-Fi-connectivity and recreational centers where newspapers, magazines and TVs are available. The campus is equipped with an internet band width of 1 Gbps with Wi-Fi access, thanks to the service of the National Knowledge Network that our institute enjoys. Internet connectivity is also extended to Boys and Girls hostels with no restriction on timing or limit for the internet usage. And this is not the end, for the facilities are continuously improving and being added in order to ensure the comfort of those, who represent what the foundation of this institution is built upon the brilliance of students.

I believe that you as the recruiting organization and our graduating students will find the best match between your needs and their capabilities.

With Best Wishes!

IIIT Kottayam**

ACADEMIC PROGRAMS

B-Tech Computer Science

The program builds a strong foundation in Computer Science and Engineering, blending core CS courses with electives in electronics, mathematics, science, humanities, and management, offering a comprehensive and well-rounded education.

B-Tech CSE-Cyber Security

The program builds a strong Computer Science foundation, initially following the CSE curriculum. Later, courses in network security, cryptography, and ethical hacking prepare students to secure systems and address cybersecurity threats.

B-Tech CSE-AI and Data Science

The B.Tech in Computer Science with AI & Data Science specialization blends core CS courses with electives in AI, Data Science, Electronics, Mathematics, Science, Humanities, and Management, starting with fundamental Computer Engineering courses.

B-Tech Electronics and Communication

The B.Tech in ECE provides exposure to cutting-edge technologies, blending Computer Science to boost career prospects. It covers Hardware/Software Co-Design, Signal Processing, VLSI, IoT, Edge Computing, and more.

M-Tech for Working Professionals

Courses at IIIT Kottayam, including Big Data, AI, and Cyber Security, foster R&D skills through faculty collaboration. The Senate-approved curriculum aligns with industry needs and international standards, regularly updating to reflect technological advancements.

Integrated MTech (with BCA-MCA)

The Integrated MTech (BCA-MCA) in AI & Data Science at IIIT Kottayam is tailored for students with a Science background and working professionals. Aligned with NEP 2020, it offers a flexible, vocationally integrated curriculum.

PhD

IIIT Kottayam's doctoral program emphasizes world-class research in computer science, focusing on AI, ML, DL, computer vision, and AI security. In Electronics and Communication, research covers 5G/6G antenna design, RF, nanomaterials, optoelectronics, and quantum materials.

STUDENT RECOGNITIONS

Google Summer of Code (GSoC)

- Akshay Warriar – GNOME Foundation (user accessibility tools)
- Rohit Gudimetla – Zulip (performance optimization)
- Gunj Joshi – stdlib (developing mathematical packages)
- Gaurav Jain – mitmproxy (network security tools)
- Zishan Ahmed - Rocket.Chat

Winter of Code - FOSS

Gunj Joshi

- Contributed to the Knowledge Sharing Platform as a "Winter of Code" participant in an open-source project, organized by IIT Bhilai from January 24 to February 24.

Game Forge Runners-Up

S. Bharath Krishnan, Ankur Majumdar, Gowrish I

- The team emerged as Runners-Up in the Game Forge competition conducted by Petrichor'24, the annual event of IIT Palakkad.

FOSSx Challenge - IIT B

Ganesh Patil, Aryan Kashyap

- Winner of the FOSSx Challenge organized by IIT Bombay's TrustLab for authoring a whitepaper on the reverse engineering tool Frida.
- Winner of the Summer of Code Challenge by IIT Bombay's TrustLab for contributions to the ZAP Proxy tool.

Akshay Warriar: Project selected for a booth at **IndiaFOSS**.

Bharatiya Antariksh Hackathon, ISRO

Harsh Vardhan Singh Chauhan, Laavanya Rajan, Sadhana Thirumangai, Suraj Harlekar

- Reached the Grand Finals of the Bharat Antariksh Hackathon 2024.

Winners - Cython Hackathon 2024

Saketh Mallojjala, Jaswanth Kumar, Komal Krishna, Sai Surya

- Emerged as winners of the Cython Hackathon 2024.
- Organized by IIT Delhi, FITT, and NTRO

Smart India Hackathon

Smart India Hackathon 2023

Aaditi (Lead), Harsh Gupta, Laahiri Adusumilli, Sukrit Garg, Sourjesh Mukherjee, Vishal Kanamarlapudi

- The team bagged 1st prize in the prestigious Smart India Hackathon 2023, winning a cash award of ₹1 Lakh.
- Worked on problem statement PS-1368, provided by the Ministry of Social Justice and Empowerment.

Smart India Hackathon 2022

Akshay Warriar (Lead), Ganesh Nathan, Niranjana Nagumalli, Rohith Ninan, Samhitha Bharthulwar, Sai Harvin Kusumaraju

- Bagged the 1st prize in the prestigious Smart India Hackathon 2022, with a cash award of ₹1 Lakh.
- Worked on problem statement-PK858, provided by the Ministry of Electronics and Information Technology (MeitY).

Smart India Hackathon 2022

Harini T (Lead), Shashank Kumar Srivastava, Ishaan Mahesh, Akarsh Pandey, Divyansh Panwar, Bhavya Goyal

- Bagged the 1st prize in the prestigious Smart India Hackathon 2022, with a cash award of ₹1 Lakh.
- Worked on problem statement-At-980, provided by the Madhya Pradesh Police Department.

Samhitha Bharthulwar : Selected for **Goldman Sachs Summer Analyst** Internship Program.

Sriharsha B : Intern at **ISRO** at **National Remote Sensing Centre**.

RESEARCH AND PUBLICATIONS

Paper Presentation - AITA 2024

- Konyala Anish Reddy: Presented a paper titled "Integrating Explainable AI with Machine Learning for Accurate Liver Disease Diagnosis" at the Theory and Applications (AITA 2024).

Publication - ICONIP 2024

Sravan Kumar Reddy

- Published a paper titled "Visualizing Visual Thought using Deep Oscillatory Neural Network" in Springer-Nature proceedings.
- Accepted for presentation at the International Conference on Neural Information Processing (ICONIP) 2024, to be held in New Zealand.

Paper Publication - FOSS-CILT24 & ICTACT Journal

Akshay S

- Published a paper titled "Comparison of Explainability of Machine Learning-Based Malayalam Text Classification" at the International Conference on FOSS Approaches towards Computational Intelligence and Language Technology (FOSS-CILT24).
- The paper was later published in the ICTACT Journal on Soft Computing (IJSC).

Best Paper Award - CODE-AI 2024

Subodh Uniyal, Maitri D Savla, Tushaar, Ashly Ann Jo, Ebin Deni Raj

- Received the Best Paper Award at the International Conference on Data Science and Exploration in AI (CODE-AI 2024), MIT Bengaluru,

Darisi Priyatham, Tanuj Kartek : Presented a talk on Cyber Security at the **IEEE Future Fusion** event, themed on Advanced Technologies, hosted by QIS.

Dhivyesh, Nived : Reached the Grand Finals and ranked among the Top 15 teams from India at the **IEEE CIS AI Hackathon 2023**, held at MNIT Jaipur.

INTERNSHIPS

About Internships

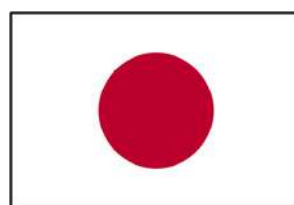

The placement cell is responsible for campus Internships at IIIT Kottayam. The placement cell establishes and maintains relationships with various industries and organizations, cultivating partnerships and collaborations to understand their hiring needs, trends, and requirements.

The placement cell establishes and maintains a strong network of alumni who can contribute to the betterment of the process.

Some Companies our interns are working at:

Countries our students doing internships/research:

INNOVATIVE INITIATIVES

The AIC IIITKottayam Foundation is a non-profit incubation center supported by the Atal Innovation Mission, providing entrepreneurs with knowledge, mentorship, and resources to develop and implement IoT and Cloud solutions for societal benefits.

Gyaan Innovation Lab, IIIT-Kottayam, transforms innovative ideas into reality with services like prototyping, app development, AR/VR projects, and startup mentoring. Our expert team collaborates closely with clients, driving efficient and impactful innovation.

MSME-BI-IIITKottayam, a business incubation centre under MHRD, Govt. of India, enhances business logic and innovation for students, entrepreneurs, and enterprises, supported by MSME. The centre encourages innovators to submit their ideas for development with expert guidance.

Cyber Labs, part of the Cybersecurity Research Group at IIIT Kottayam, is led by esteemed faculty dedicated to advancing cybersecurity research and innovation. The lab focuses on cutting-edge cybersecurity challenges, providing a collaborative environment for students, researchers, and industry professionals to develop solutions.

Intelligent Integrated Circuits and Systems

Research Group at IIIT Kottayam. Our diverse group conducts cutting-edge research on hardware accelerators, secure computing, VLSI, intelligent systems, approximate computing, hardware security, and FPGA-based system design. We are also exploring advancements in emerging technologies such as neuromorphic computing and quantum hardware. Our work aims to push the boundaries of innovation and address real-world challenges in integrated circuit design.

FACTS-H Lab offers advancing responsible, transparent, and secure computing, emphasizing fairness, accountability, and transparency. By integrating sociological and humanistic insights into computing solutions, the interdisciplinary team shapes the future of technology through innovative research and collaboration. The lab also focuses on developing frameworks for ethical AI and evaluating the societal impacts of emerging technologies.

TECHNICAL CLUBS

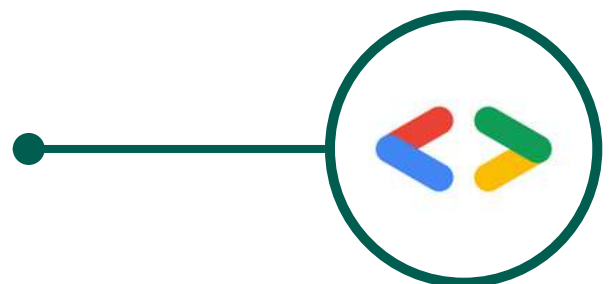

The Beta Labs at IIIT Kottayam are a thriving group of like-minded people who are enthusiastic about technology and its endless possibilities.

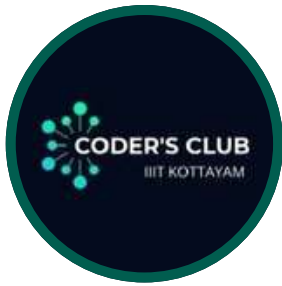

ACM is a one stop for all your coding related endeavors. The clubs strive to bring a culture of cognitive coding and hackathons into IIIT Kottayam.

Owing to their global outreach all along the year **IEEE**, IIIT Kottayam has conducted several workshops, hackathons and quizzes all with exciting prizes and invaluable knowledge up for grab

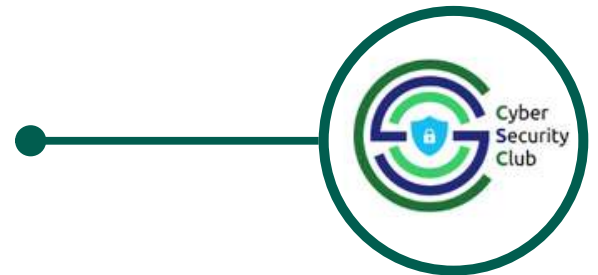

Google Developer Groups (GDG) offer a platform to connect with developers and technologists from diverse backgrounds and industries. Participants can learn new skills through hands-on workshops, training, and events, both online and in person.

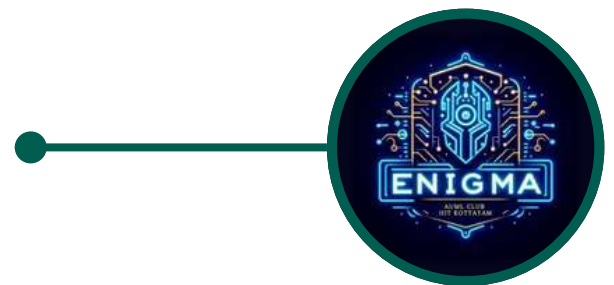

The Coder's Club is dedicated to enhancing skills in competitive programming, data structures, and algorithmic thinking. The club fosters a community of aspiring ICPC winners and INOI/IOI medalists.

The Cyber Security Club of IIIT Kottayam is the largest departmental club, boasting a community of over 100 members dedicated to cybersecurity awareness and skill development.

Game Dev Utopia (GDU) is a vibrant community of passionate developers and designers, specializing in game creation with Unity and Godot, while mastering tools like Blender, Aseprite, and frameworks

Enigma, the **AI/ML Club** of IIIT Kottayam, is a hub for students passionate about artificial intelligence and machine learning.

ELIX, the **ECE Club** of IIIT Kottayam is dedicated to promoting innovation, research, and practical applications in the ECE field

NON-TECHNICAL CLUBS

TRENDES

Trendles Club fosters personal growth through diverse activities, helping students pursue their dreams. Under its umbrella, clubs cater to photography (Chitrachaya), literature (Litsoc, Literary Club), design, PR, finance, outreach, social impact, and entrepreneurship, offering hands-on experience, creativity, and skill development across multiple domains.

WILDBEATS

Wildbeats, the cultural club of IIIT Kottayam, celebrates India's diverse festivals and promotes cultural activities. It includes a vibrant dance and music club, a drama club that brings storytelling to life, and an art club that fosters creativity in various forms, making it a hub of artistic expression.

SPORTS CLUB

Sportec handles all the details for team sports like table tennis chess as well as individual competitions like cricket, soccer, football, and volleyball. Be aware that Sportec is going to sparkle when the whistle blows and when voices can be heard hundreds of meters from the stadium!

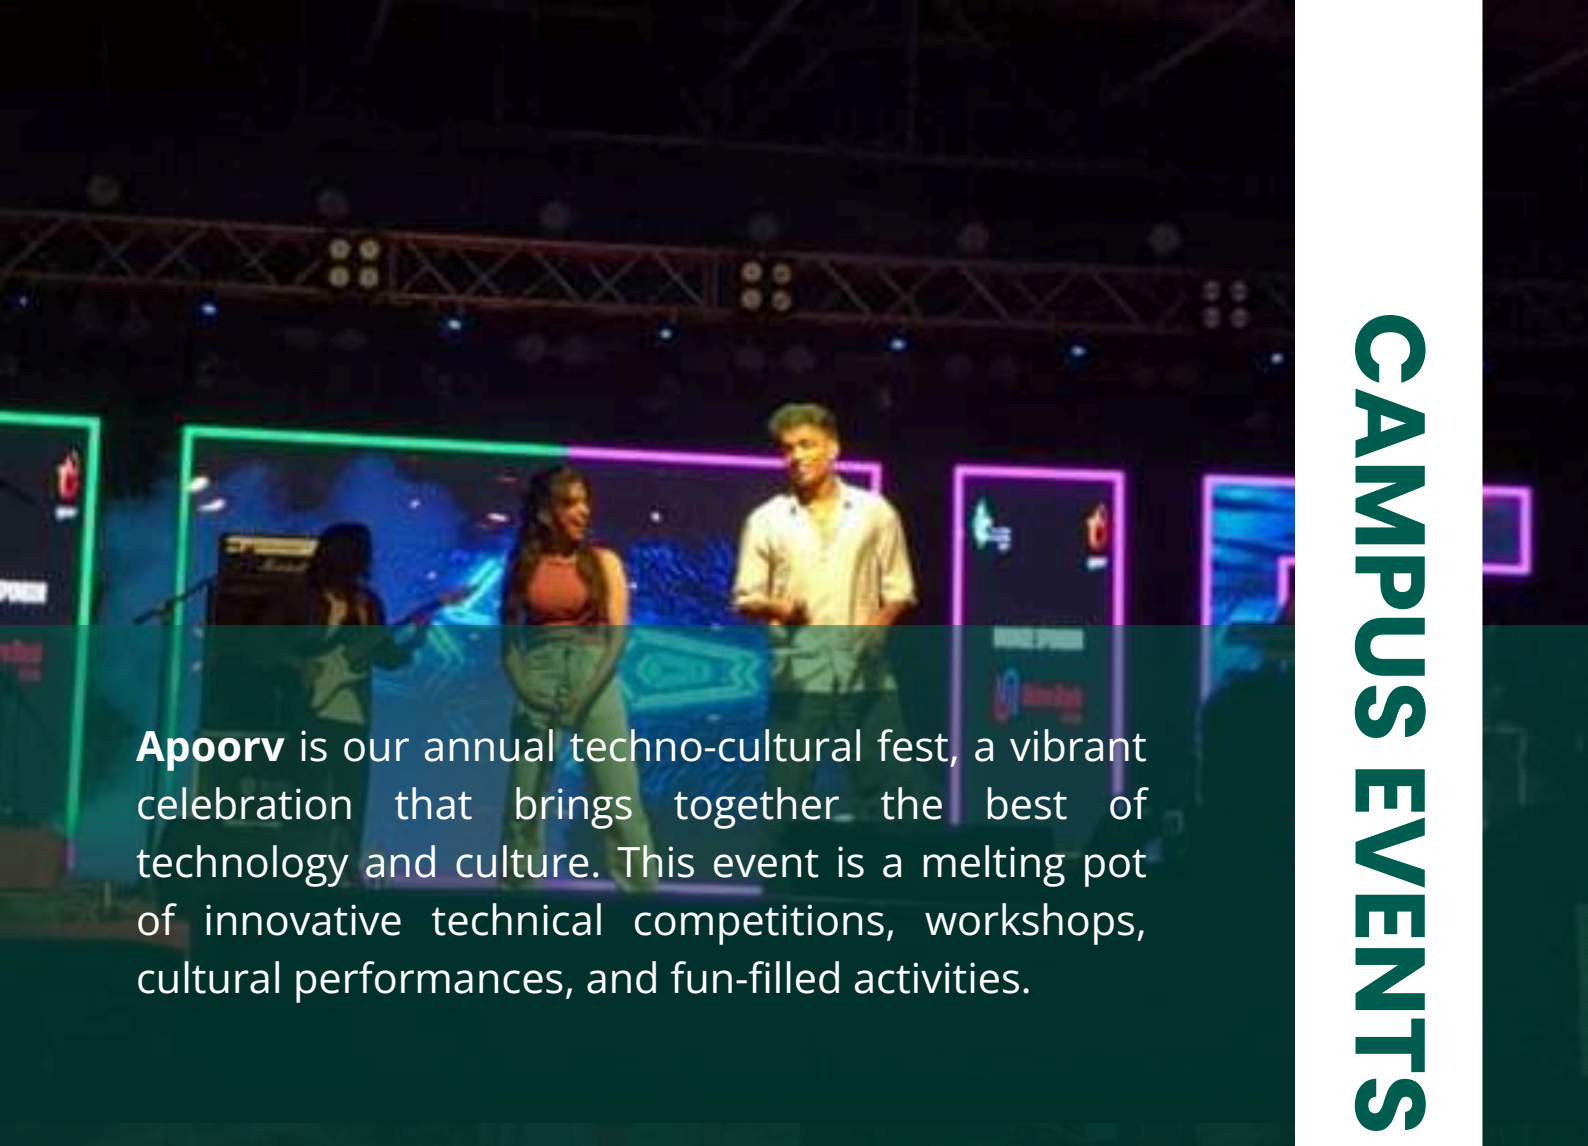

MINDQUEST

Mind Quest promotes mental wellness by reducing stigma, encouraging help-seeking behaviors, and addressing stress, anxiety, harassment, and suicidal ideation. The club fosters emotional well-being, self-awareness, and self-efficacy through proactive practices like yoga, productivity hacks, and overcoming fears. It provides mentorship, aiming to create a supportive, happy community.

A woman in a blue sports jersey is shown in action, reaching out to catch or pass a basketball on an outdoor court. In the background, another person is visible, and the court is surrounded by lush greenery.

CAMPUS EVENTS

A group of students are on a stage during the Apoorv techno-cultural fest. They are standing in front of large digital screens displaying vibrant, abstract patterns. The stage is lit with colorful lights, and the atmosphere appears to be a celebration of technology and culture.

Apoorv is our annual techno-cultural fest, a vibrant celebration that brings together the best of technology and culture. This event is a melting pot of innovative technical competitions, workshops, cultural performances, and fun-filled activities.

Pradhva is the annual sports meet that embodies the spirit of sportsmanship and healthy competition. This event is dedicated to athletic excellence, featuring a wide range of sports including cricket, football, basketball, athletics, and more. It provides students an opportunity to display their physical abilities, teamwork, and strategic thinking.

Adavya is the eagerly anticipated fresher's meet that embodies the spirit of camaraderie and new beginnings. This vibrant event is dedicated to welcoming the newest members of our college community, featuring a variety of fun-filled activities, icebreakers, and cultural performances.
